

# Accept.io Setup Guide

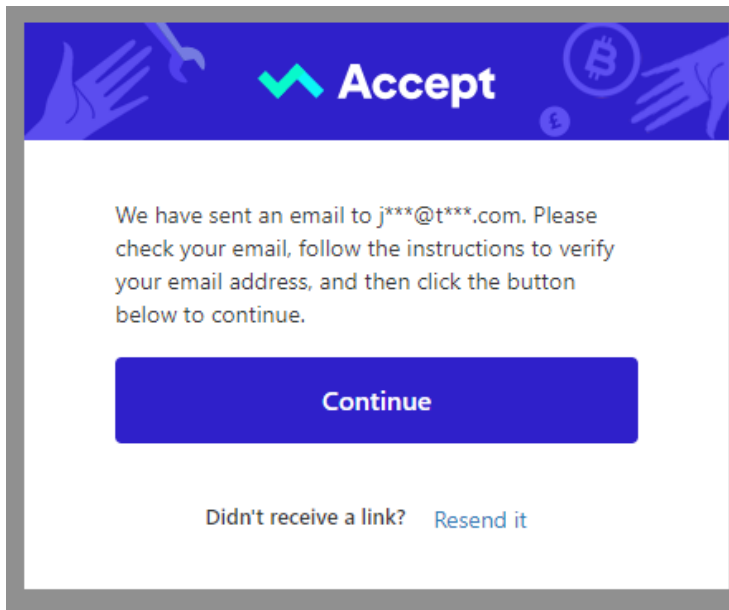

## Setup Accept.io account

1. Visit <https://accept.io/>  
\*Use Chrome, Firefox or Brave Web Browser, Accept.io will not work on any browser at this stage
2. Click on Sign In
3. Click on Sign Up
4. Enter your email address
5. Create a password for your account

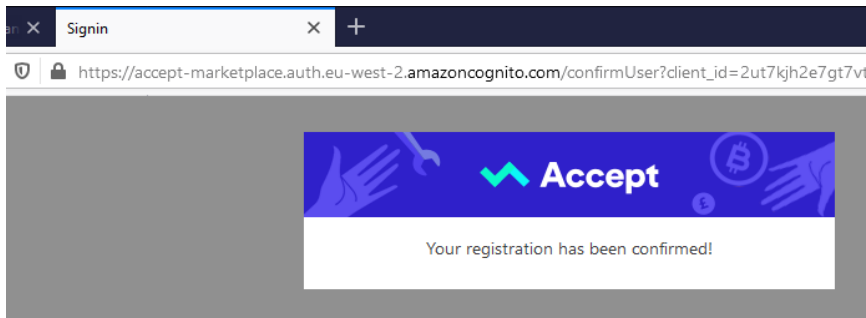

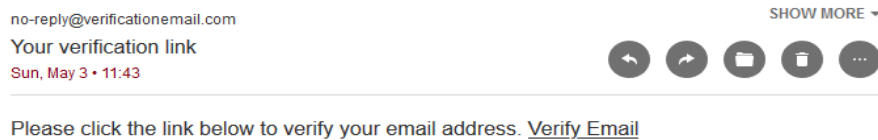

The screenshot shows a web browser window with a single tab titled 'Signin'. The address bar displays a long URL: 'accept-marketplace.auth.eu-west-2.amazonaws.com/signup?response\_type=code&client\_id=2ut7kh2e7gt7vt16715...'. The browser's bookmark bar contains several links, including 'Apps', 'Official AFL Website...', 'Slack | it-cybersecur...', 'CASB', 'unidigi', 'Number University', 'Cryptoeconomics L...', 'Plasma Chamber [...]', 'bounties.network', and 'MakerDAO Archive...'. The main content area features a sign-up form for 'Accept'. The form has a blue header with the 'Accept' logo and icons of hands holding tools. Below the header, the text 'Sign up with a new account' is displayed. The form includes two input fields: 'EMAIL' with a placeholder 'Email' and a calendar icon, and 'PASSWORD' with a placeholder 'Password' and a password strength icon. A blue 'Sign up' button is positioned below the fields. At the bottom of the form, a link reads 'Already have an account? Sign in'.

6. Click on Signup
7. Go to your email account to verify your email address

8. Go to your email account to verify your email address

9. Logon to your accept.io account with the email and password you setup

Sign in with your email and password

Need an account? [Sign up](#)

10. Step 2 Create personal profile and click on continue

**Personal info**  
This information is private and will not be visible to other users

**FIRST NAME**

**LAST NAME**

**PHONE NUMBER**  
Enter your number

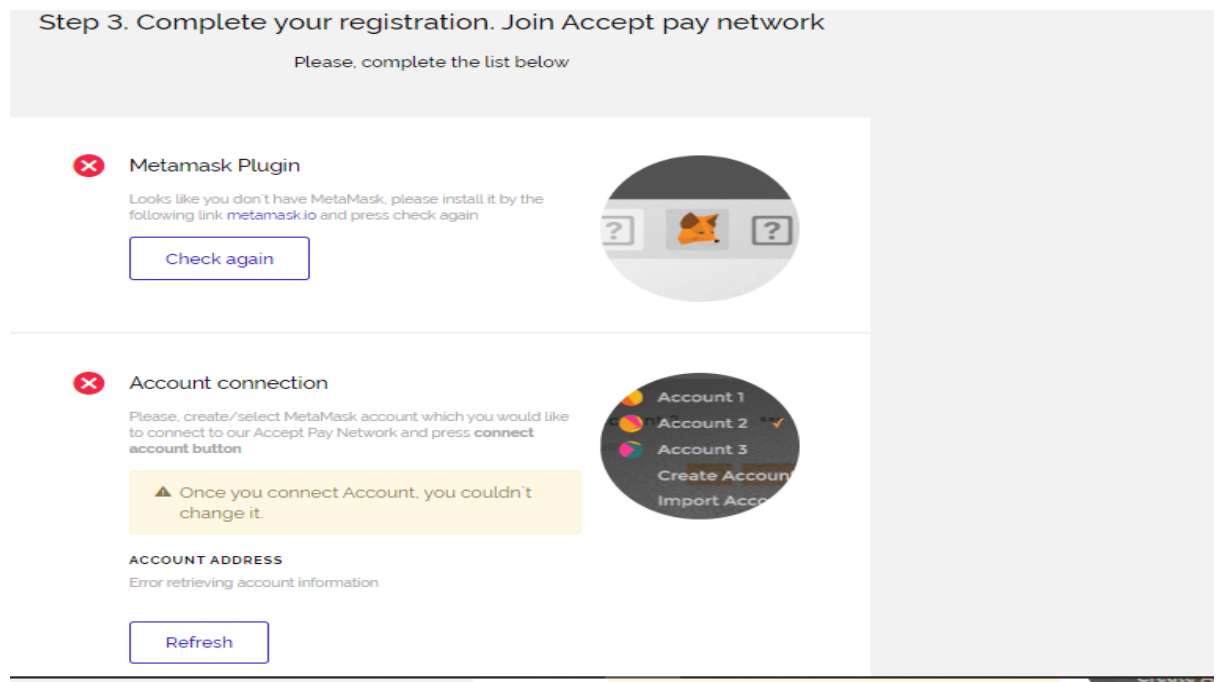

**ADDRESS**  
Enter a postcode or address line. Only information about your city will be visible to other users

**Public info**  
This information will be visible to other users

**USERNAME**  
Enter your unique username. This is how you will appear for other users.

**Continue**

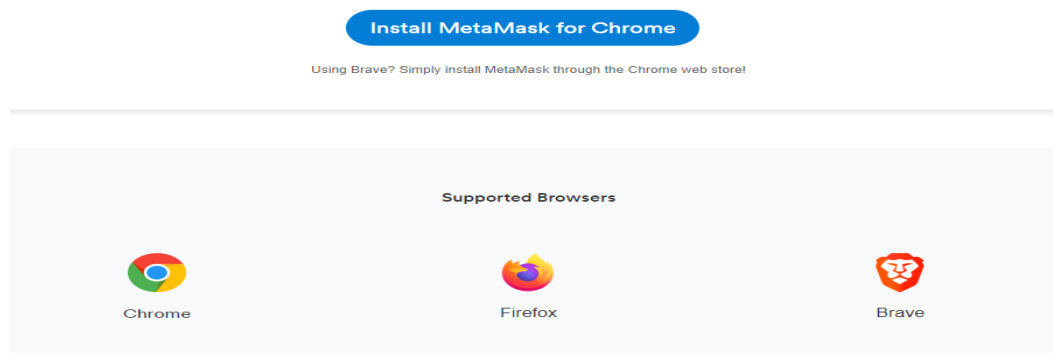

11. At this stage, you will be required to create an account on MetaMask, MetaMask is the Digital Wallet that allows you to top up funds and trade on the Accept.io platform

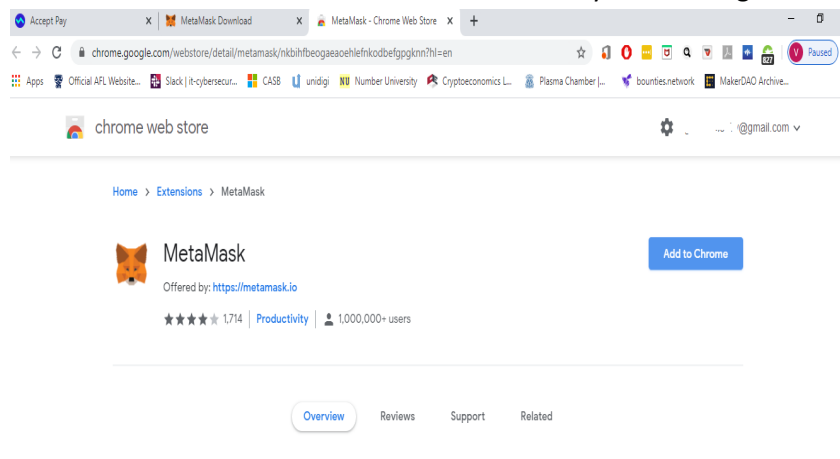

12. Important note: MetaMask will only work on Chrome, Brave or Firefox Web Browsers

13. Head to <https://metamask.io/>

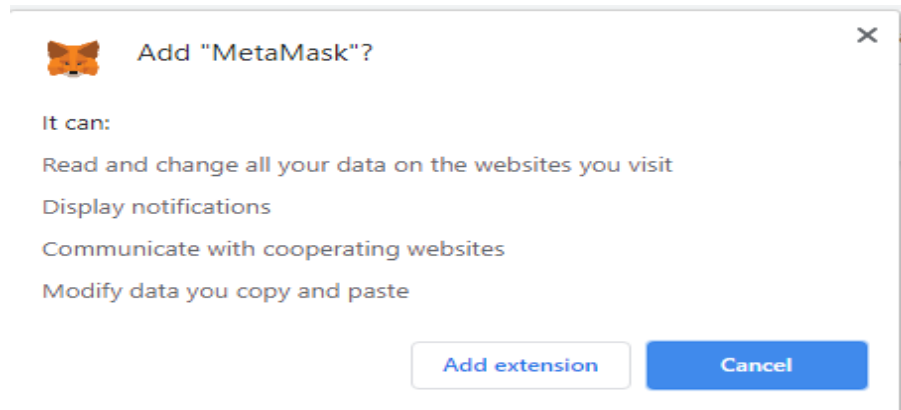

14. Download the Extension for Chrome or Firefox

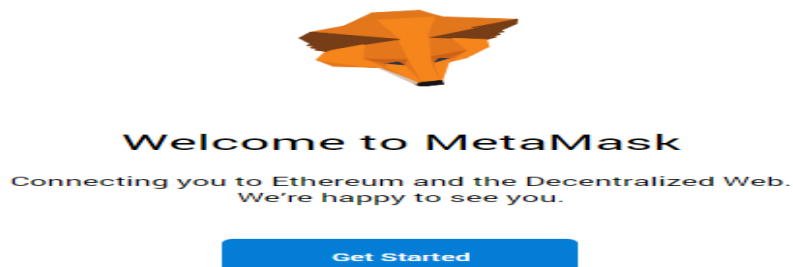

15. Click on Add to Chrome or whatever Browser you are using

15. Click on Add Extension

16. Wait around 40 seconds, then Click on Get Started

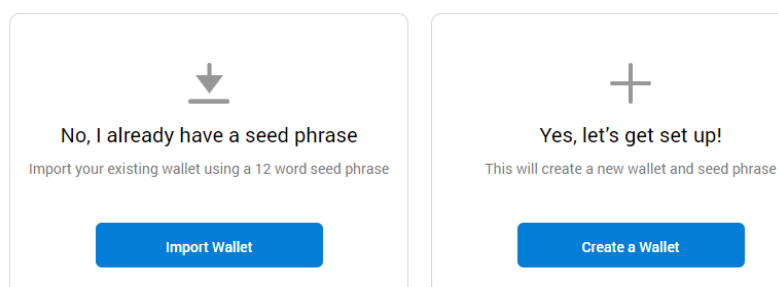

17. Click on Create a Wallet, this step will create a digital wallet

If you already have an existing Digital Currency Wallet then you can also import your wallet

New to MetaMask?

18. Click on Agree, as shown below

## Help Us Improve MetaMask

MetaMask would like to gather usage data to better understand how our users interact with the extension. This data will be used to continually improve the usability and user experience of our product and the Ethereum ecosystem.

MetaMask will..

- ✓ Always allow you to opt-out via Settings
- ✓ Send anonymized click & pageview events
- ✓ Maintain a public aggregate dashboard to educate the community
- ✗ **Never** collect keys, addresses, transactions, balances, hashes, or any personal information
- ✗ **Never** collect your full IP address
- ✗ **Never** sell data for profit. Ever!

No Thanks

I agree

19. Enter a password for your MetaMask account, this is the password you will use to login to your digital wallet

Also click on the "I have read and agree to the Terms of Use" and hit Create

< Back

## Create Password

New Password (min 8 chars)

Create

20. At this stage you will need to backup Secret Backup Phrase

This account is used in the event you get locked and need to recover your Digital Wallet

**It is very important to understand that the MetaMask Digital Wallet is stored on your PC and you own and manage your Digital Wallet just like a Physical Wallet**

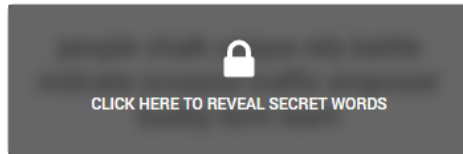

**So make sure you protect your MetaMask Digital Wallet**

## Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

**WARNING:** Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.

Tips:

Store this phrase in a password manager like 1Password.

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

Memorize this phrase.

[Download this Secret Backup Phrase and keep it stored safely on an external encrypted hard drive or storage medium.](#)

21. Click on the Click HERE TO REVEAL SECRET WORDS

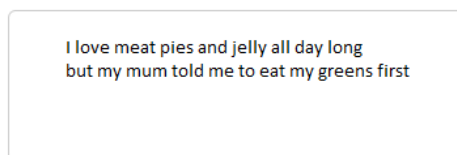

**\*\*Write down the Secret Backup Phrase on a paper and secure that paper away in case you ever need to recover your account\*\***

## Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

Memorize this phrase.

[Download this Secret Backup Phrase and keep it stored safely on an external encrypted hard drive or storage medium.](#)

22. Click on the Next button to continue

23. MetaMask will ask you to confirm your Secret Backup Phrase, this is done by Clicking on each word as shown in the following example below

< Back

## Confirm your Secret Backup Phrase

Please select each phrase in order to make sure it is correct.

day	love	long	meat
all	jelly	I	pies
but	mum	and	my
to	eat	told	me
greens	my	first	

24. All the Words should appear in the top panel, Click on Confirm

Confirm

25. If all went well then you should be directed to the following page

## Congratulations

You passed the test - keep your seedphrase safe, it's your responsibility!

### Tips on storing it safely

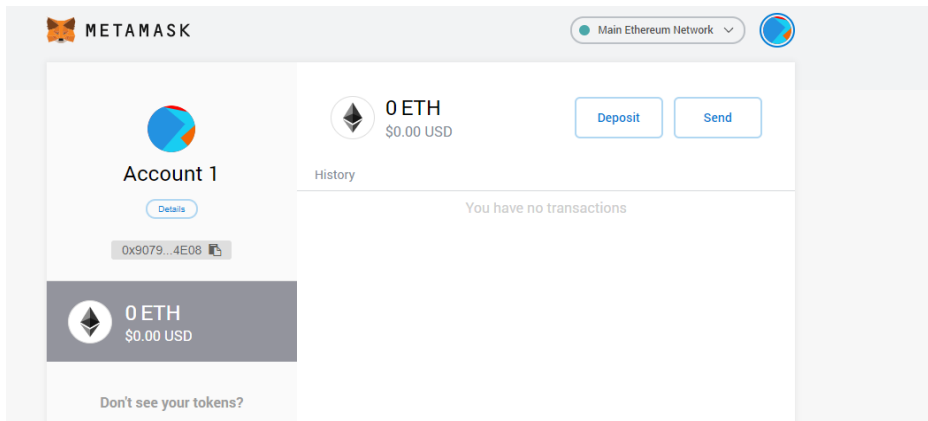

- Save a backup in multiple places.
- Never share the phrase with anyone.
- Be careful of phishing! MetaMask will never spontaneously ask for your seed phrase.
- If you need to back up your seed phrase again, you can find it in Settings -> Security.
- If you ever have questions or see something fishy, email [support@metamask.io](mailto:support@metamask.io).

\*MetaMask cannot recover your seedphrase. [Learn more.](#)

All Done

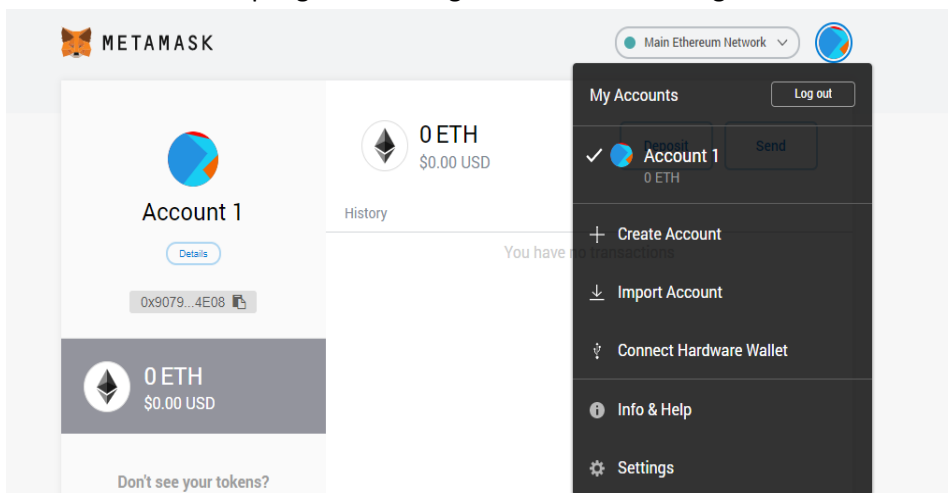

26. Click on All Done, you will then be logged into your MetaMask Digital Wallet

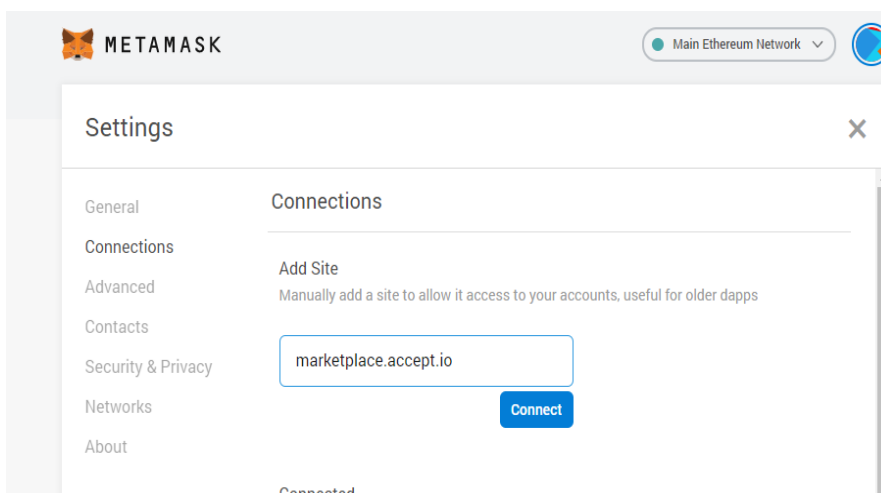

27. In the Next Step you will need to setup the connection in Metamask to talk to Accept.io

28. Click on Circle Top Right of the Page then Click on settings

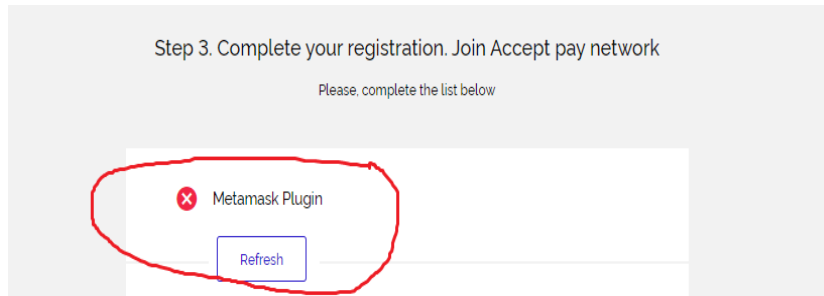

29. Click on Connections and add site marketplace.accept box  
Click on Connect

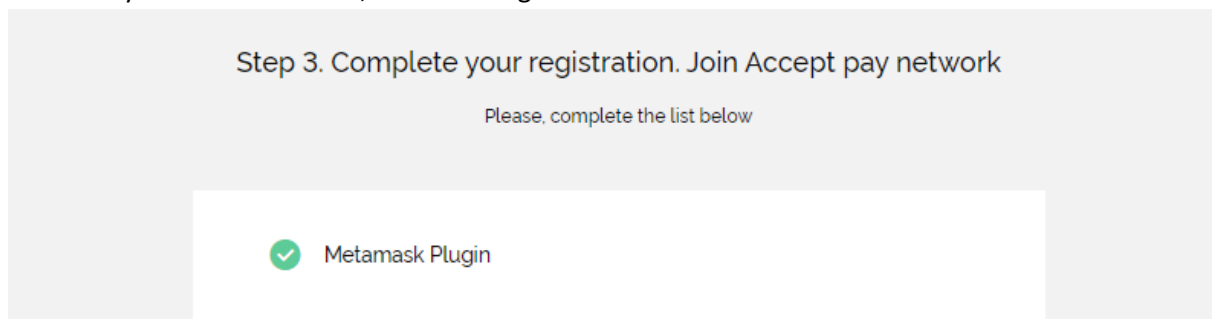

30. Navigate back to Accept.io and perform the following steps

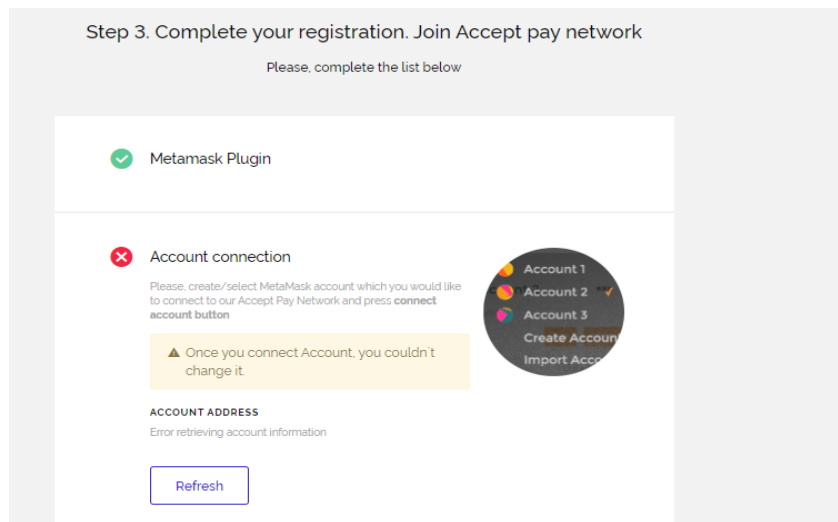

31. Click on the Metamask Plugin 'Refresh' button

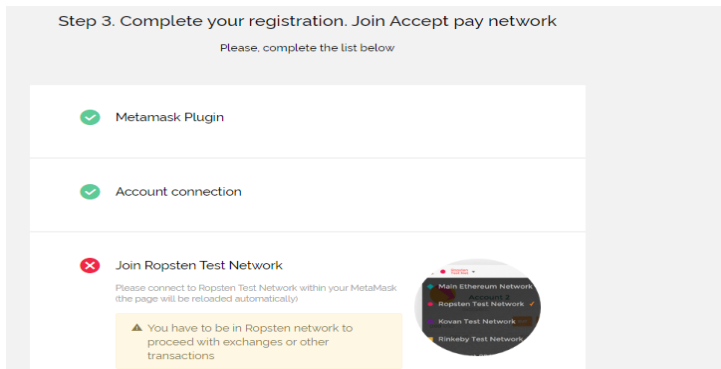

32. When you click on Refresh, the following screen should occur

33. Click on the Refresh button below the Account Connection Section

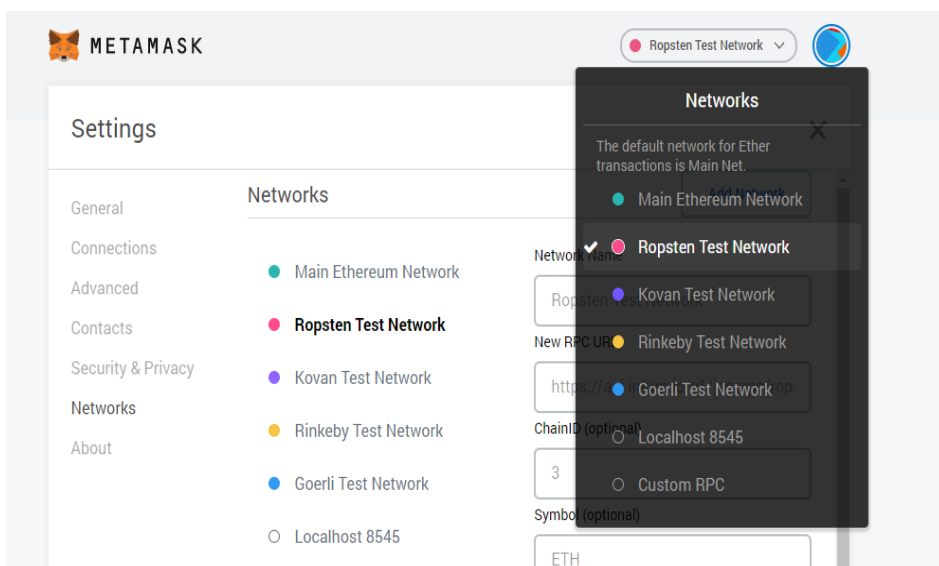

34.The following screen should occur

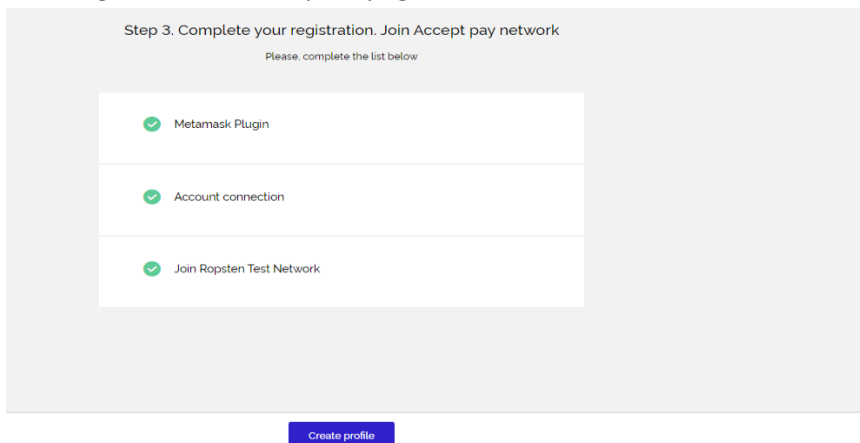

35.In the Final Step you need to change the network for accept.io

Navigate to Metamask webpage and change the network to “Ropsten Test Network” as shown below

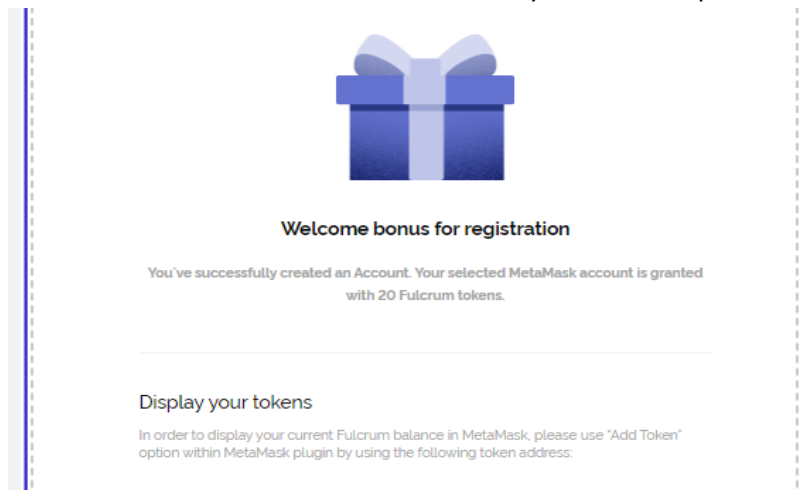

36.Navigate back to Accept.io page and the Network should now be refreshed

37.Click on the Create Profile button to finalise the setup of your accept.io account

You have been awarded 20 Fulcrum tokens you can now spend on the accept.io platform

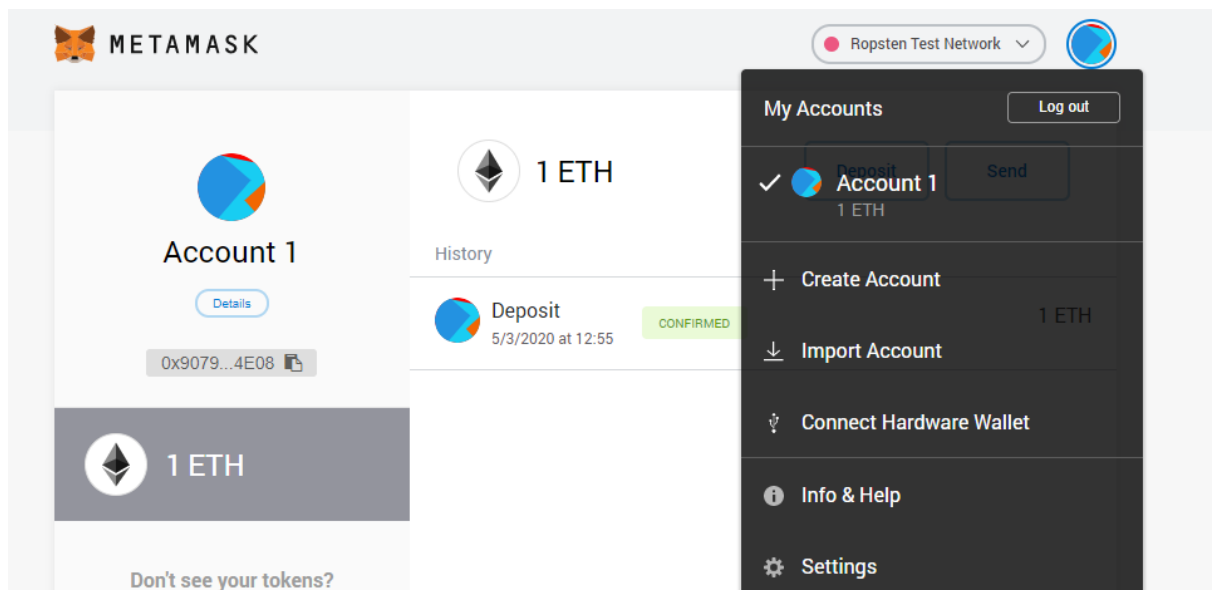

38. Copy your token address and keep that somewhere safe, this is your digital currency bank account

**TOKEN CONTRACT ADDRESS**

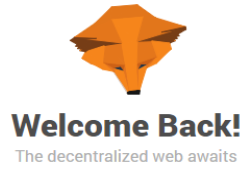

0x77123248e0561A26104dd671f20d47dA764E5694

COPY

39. Navigate to your MetaMask Account, logout

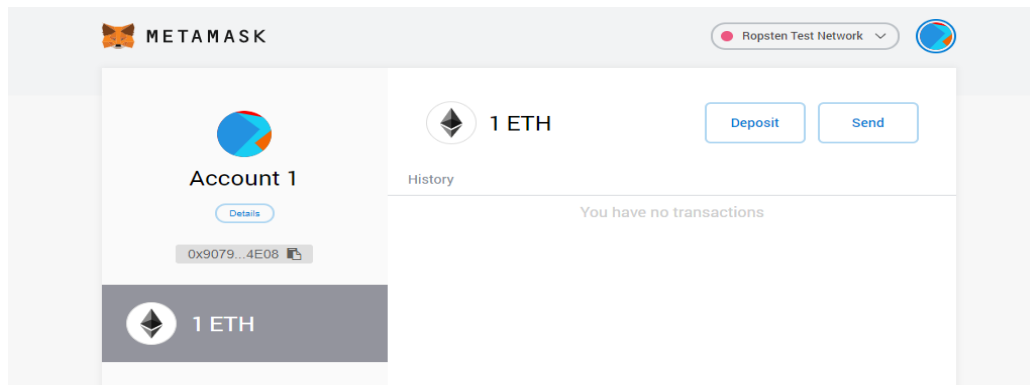

40. log back in to confirm your account has been credited as shown below

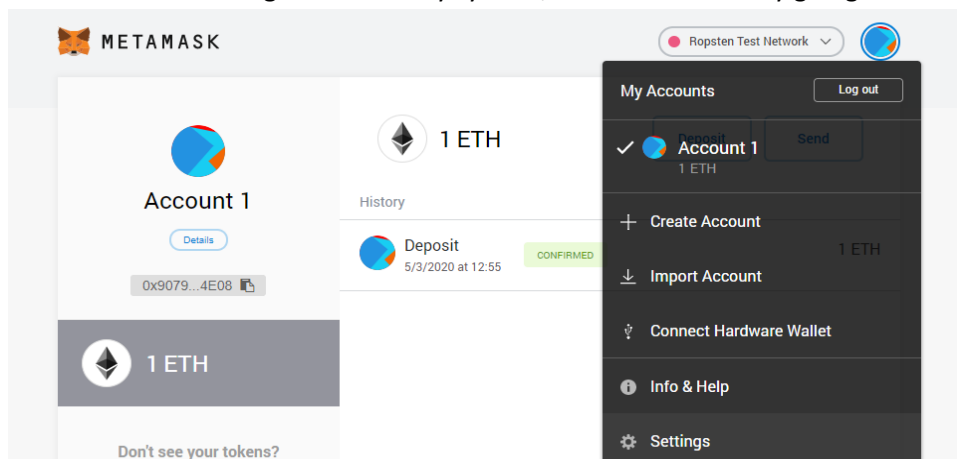

Password

.....|

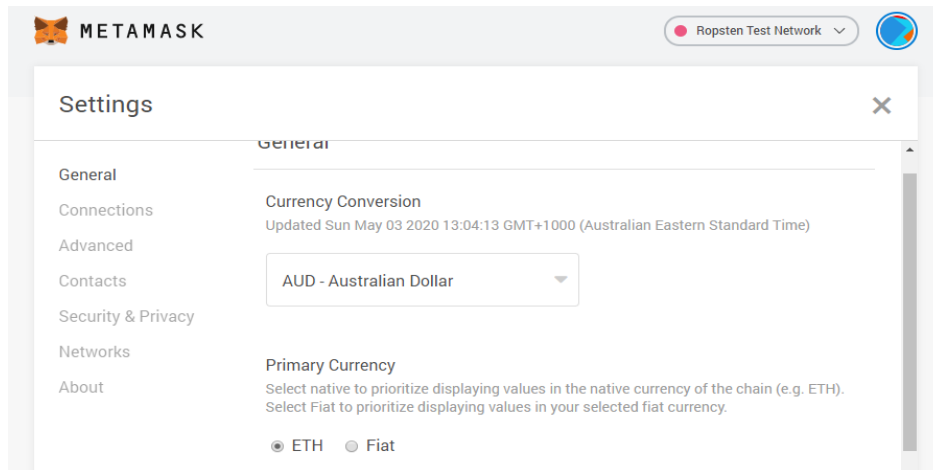

LOG IN

41. You can also change the currency symbol, this can be done by going to settings

42. Select the currency you wish to display your balance, i.e AUD and change the Primary currency to Fiat or leave in ETH if you wish

Congrats you have now setup Accept.io on your Desktop and can Buy or Offer your services on the Market place

You can now Transact on Accept.IO on your PC or Mobile by visiting Accept.IO however to Access your MetaMask Digital wallet this must be done on your computer via the selected browser i.e Chrome, Firefox, Brave

## Appendix

**Digital Currency:** An Alternative FIAT currency

**ETH or Ethereum:** Is an open source public, blockchain that allows you to trade in ETH Digital Currency

**Bitcoin:** Is one of the first Digital Currencies invented
